

PROMPT1:

make this house as it was abandoned for too many years. grass all over, garbage in the surroundings. Walls cracked .. Some graffiti worked on walls . windows broken.. Rusty doors total mess..broken furniture .Make it as worse as you can.

PROMPT 2:

Make this house clean. All the garbage is picked up. Walls refaired . window refaired . And make this house as it is ready for paint, no furniture, no glasses.

PROMPT 3:

Timelapse of this home renovation. multiple workers picking up the garbage, removing the grass from the house, washing it and making it ready for the paint as shown in the final frame. Fast-motion construction actively showing the transformation from bare unfinished home to polished area. Realistic construction site progression.

PROMPT4:

Timelapse of this home renovation. Multiple workers painting, adding furniture and decorating items, add lighting and make it the same as the final frame. Fast-motion construction actively showing the transformation from bare unfinished space to polished outdoor area. Realistic construction site progression.
