

«Справочник Оператора» (Camera Bible)

Camera Bible — Complete Cinematography Reference

Read this entire file before making any camera choice.

Every option includes: what it is, what emotion it creates, real example, AI prompt words.

THE 3 DIAGNOSTIC QUESTIONS

Answer these before any camera setting:

1. **What emotion should the audience feel?** (one word)
2. **Who holds power in this scene?** (character or "neither")
3. **What is the single most important visual element?** (what the eye must land on)

All camera choices flow from these answers. Never choose randomly.

SHOT TYPES — 13 Options

EWS — Extreme Wide Shot

Emotion: Isolation, scale, overwhelm, loneliness

What it says: Character is tiny. World is vast. They are small in it.

Example: Lawrence of Arabia — tiny figure crossing infinite desert.

AI prompt: `extreme wide shot, subject tiny in vast environment, isolation, scale`

WS — Wide Shot

Emotion: Context, arrival, journey, placement

What it says: Character exists within a world. They are part of something larger.

Example: Every establishing shot. Character shown within their environment.

AI prompt: `wide shot, full environment visible, character placed in world`

MWS — Medium Wide Shot

Emotion: Action, physical storytelling, posture reads

What it says: Full body visible. How they carry themselves tells us who they are.

****Example:**** A character's walk – confident, defeated, afraid – reads at MWS.

****AI prompt:**** `medium wide shot, full body visible, posture and movement readable`

MS – Medium Shot

****Emotion:**** Conversation, relationship, neutrality

****What it says:**** We are at normal human distance. No agenda. Just listening.

****Example:**** Standard dialogue shot. The honest, neutral shot.

****AI prompt:**** `medium shot, waist up, eye level, neutral, conversational`

MCU – Medium Close-Up

****Emotion:**** Emotional engagement beginning, investment

****What it says:**** We are starting to feel WITH this person, not just watch them.

****Example:**** The moment before a character makes a decision – tension building.

****AI prompt:**** `medium close-up, chest to head, emotional engagement, investment`

CU – Close-Up

****Emotion:**** Deep emotion, truth, vulnerability, revelation

****What it says:**** This person's inner life IS the story right now.

****Example:**** Any great actor's face in their defining scene.

****AI prompt:**** `close-up, face fills frame, emotion is the subject, shallow depth of field`

ECU – Extreme Close-Up

****Emotion:**** Obsession, dread, the world narrows to one thing

****What it says:**** This single detail IS everything right now. Nothing else exists.

****Example:**** Tea crossing the bowl rim. An eye. A trigger finger. A signature being signed.

****AI prompt:**** `extreme close-up, one specific element fills entire frame, world narrows`

2S – Two-Shot

****Emotion:**** Relationship, tension, contrast, dynamic between two people

****What it says:**** The space between them tells us everything.

****Example:**** Two characters facing a decision together – or facing each other.

****Tip:**** Left side of frame = past/established. Right side = future/change.

****AI prompt:**** `two-shot, both characters in frame, [describe space between them]`

OTS – Over The Shoulder

****Emotion:**** Perspective, shared view, we are in the conversation

****What it says:**** We see what this character sees. We share their position.

****Example:**** From Tobun's shoulder looking at Renzo – suddenly Renzo looks smaller.

****AI prompt:**** `over the shoulder shot, camera behind [Character A], looking at [Character B]`

POV – Point of View

****Emotion:**** Full immersion, we ARE the character, first person

****What it says:**** This is not observation – this is experience.

****Example:**** Walking through a door. Looking down at your own hands.

****AI prompt:**** `point of view shot, first person perspective, we are the character`

DA – Dutch Angle

****Emotion:**** Psychological unease, instability, something is wrong

****What it says:**** The world is tilted. Normal rules don't apply here.

****Example:**** Every villain reveal. Every moment of psychological horror.

****AI prompt:**** `dutch angle, tilted frame 15-30 degrees, horizon line wrong, unease`

BA – Bird's Eye / Top Down

****Emotion:**** Detachment, god view, pattern, insignificance

****What it says:**** We observe from above. We are removed from the character's experience.

****Example:**** Final empty bowl – story is over, we step back and look down.

****AI prompt:**** `bird's eye view, camera directly overhead, top-down, subject seen as pattern`

WE – Worm's Eye

****Emotion:**** Overwhelm, the subject is massive, we are small

****What it says:**** Looking up makes the subject dominant, threatening, or heroic.

****Example:**** Renzo at the gate – three swords against dawn sky. He feels like a force.

****AI prompt:**** `worm's eye view, camera at ground level looking up, subject towers against sky`

CAMERA ANGLE

Angle	Emotional Effect
Low angle	Subject looks powerful, heroic, threatening
Eye level	Neutral, equal, honest, natural
High angle	Subject looks small, judged, vulnerable
Overhead	Abstract, pattern, emotionally removed
Canted/tilted	Psychological unease, instability

CAMERA MOVEMENTS – 12 Options

Static Locked

****Emotion:**** Authority, calm, indifference, the world does not react
****What it says:**** When nothing moves – the world accepts what is happening.

****Power:**** Most underused and most powerful movement in cinema.

****Example:**** Tea pour – camera refuses to move while tea overflows.
That stillness IS the lesson.

****Seedance syntax:**** `static camera` / `locked off`

****AI prompt:**** `static locked camera, zero movement, locked tripod, absolute stillness`

Dolly In (Push In)

****Emotion:**** Tension builds, revelation approaching, we enter someone's interior

****What it says:**** We are being pulled into this moment. Something is coming.

****Example:**** Renzo's face cracking – imperceptible dolly in as his certainty collapses.

****Seedance syntax:**** `slow dolly in` / `medium dolly in` / `fast dolly in`

****AI prompt:**** `slow dolly in, camera pushes toward subject, tension building, revelation`

Dolly Out (Pull Back)

****Emotion:**** Isolation, scale revealed, character left alone, endings

****What it says:**** We are leaving them. The world around them grows.

****Example:**** Renzo laying swords down – pull back gives him privacy in transformation.

****Seedance syntax:**** `slow dolly out` / `pull back`

****AI prompt:**** `slow dolly out, camera retreats, subject grows smaller, isolation, release`

Pan Left / Pan Right

****Emotion:**** Reveal, following action, world opening in one direction

****What it says:**** The world extends in this direction – follow it.

****Seedance syntax:**** `pan left` / `pan right`

****AI prompt:**** `pan [direction], camera rotates horizontally, [following action / revealing space]`

Tilt Up

****Emotion:**** Awe, aspiration, power, subject is greater than we realized

****What it says:**** We look up at what dominates. Scale revealed vertically.

****Seedance syntax:**** `tilt up`

****AI prompt:**** `slow tilt up, camera rotates upward, subject revealed bottom to top, awe`

Tilt Down

****Emotion:**** Shame, defeat, weight, judgment from above
****What it says:**** We look down at what has fallen or been diminished.
****Seedance syntax:**** `tilt down`
****AI prompt:**** `slow tilt down, camera rotates downward, gravity, defeat, weight`

Orbit / Arc Shot

****Emotion:**** Wonder, examination, god-like observation, nothing hidden
****What it says:**** We see all sides. The subject is worth examining completely.
****Example:**** Product reveals. A character revealed from all angles.
****Seedance syntax:**** `slow orbit left` / `orbit right`
****AI prompt:**** `slow orbit [direction], camera arcs around subject, wonder, examination`

Tracking Shot

****Emotion:**** Journey, accompaniment, we walk with them
****What it says:**** We are witnesses. We follow at the same distance.
****Seedance syntax:**** `tracking shot`
****AI prompt:**** `tracking shot, camera follows subject at same distance, journey, witness`

Handheld

****Emotion:**** Intimacy, reality, urgency, documentary truth
****What it says:**** This is real. A human held this camera. We are there.
****CRITICAL for Seedance:**** Always add "subtle" – without it, models shake too violently.
****Seedance syntax:**** `handheld, subtle`
****AI prompt:**** `subtle handheld, organic human sway, documentary feel, intimate, NOT shaky`

Crane Up

****Emotion:**** Transcendence, release, story ending, we leave the characters
****What it says:**** The story is complete. We rise above the immediate and see the larger picture.
****Example:**** Renzo laying swords down + crane up = giving him space in transformation.
****Seedance syntax:**** `slow crane up`
****AI prompt:**** `slow crane up, camera rises above scene, transcendence, story releasing`

Whip Pan

****Emotion:**** Surprise, energy shift, time skip, momentum
****What it says:**** Everything just changed. We have moved to something new.
****Seedance syntax:**** Use as transition description in prompt

****AI prompt:**** `whip pan [direction], fast horizontal snap, motion blur smear, energy shift`

Vertigo Effect (Push-Pull)

****Emotion:**** Existential dread, reality shifting, something deeply wrong

****What it says:**** The world changes around this person. Reality warps.

****Use:**** Maximum once per video. Loses power if repeated.

****AI prompt:**** `vertigo effect, dolly out while zooming in, background warps, subject stays, dread`

LENS & FOCAL LENGTH

Focal Length	Character	Best For
14mm	Extreme distortion, immersive	Horror, epic environment, overwhelming scale
24mm	Wide, natural, cinematic	Establishing shots, character in world
35mm	Slightly wide, honest	Street, documentary, natural arrival
50mm	Human eye, neutral truth	Dialogue, honest scenes, no agenda
85mm	Flattering compression	Character close-ups, emotional scenes
100mm	Intimate, subject isolated	Strong emotional moments, detail
135mm+	Heavy compression, watched	Surveillance feel, observed subject
Macro	Tiny becomes universe	Objects, textures, extreme detail
Anamorphic	Horizontal flares, epic scope	Brand films, epic scale, cinematic

****Depth of Field:****

- ****Shallow**** – Subject sharp, background bokeh. Subject is isolated from world.
- ****Medium**** – Subject sharp, background soft. Balance.
- ****Deep**** – Everything sharp. Full environment readable.

****Camera Body Feel:****

- ****ARRI Alexa LF**** – Warm, organic, filmic. Industry gold standard.
- ****IMAX 70mm**** – Epic scale, rich shadow, enormous detail.
- ****16mm Film**** – Grain, texture, gritty intimacy. Raw emotion.
- ****Panavision 35mm**** – Classic Hollywood. Rich, balanced.
- ****Anamorphic**** – Horizontal lens flares. Epic widescreen scope.

LIGHTING DIRECTION

Light Quality

- ****Hard light**** – Sharp shadows. Drama. Conflict. Chiaroscuro.
- ****Soft light**** – Diffused. Gentle. Safe. Contemplative.
- ****Mixed**** – Hard key, soft fill. Cinematic standard.

Key Light Direction

Position	Effect
Rembrandt (45° above side)	Classic drama. Triangle of light on shadow cheek. Trusted.
Side lit	Half face in shadow. Duality, mystery, moral ambiguity.
Backlit	Silhouette or rim. Separation, mystery, divinity.
Front lit	Flat, honest, vulnerable, exposed.
Under lit	From below. Unsettling. Unnatural power. Wrong.
Top lit	From above. Judgment, interrogation, isolation.

Color Temperature – Kelvin Scale

Temp	Quality	Emotion
1800K	Candlelight	Ancient, intimate, fragile, last two people awake
2700K	Warm tungsten	Safe, nostalgic, human, home
3200K	Film standard warm	Professional interior, balanced warmth
4000K	Neutral morning	Truth, reality, early light
5600K	Daylight	Outdoor, balanced, real world
6500K	Overcast	Flat, cold, melancholy, no warmth
7000K+	Blue steel	Night, clinical, isolated, dangerous

****Two-temperature technique:**** Mix warm key + cool fill (or reverse).
Two temperatures in one shot = depth, complexity, dimension.
One temperature = flat, safe, less interesting.

COLOR GRADE & ATMOSPHERE

Color Grades

Grade	Emotion	Use For
Warm desaturated / wabi-sabi	Ancient, weighted, earned	Period pieces, zen, craft, tradition
Cold blue steel	Isolated, clinical, controlled	Modern thriller, loneliness, power
Golden bloom	Memory, warmth, nostalgia, earned	Endings, reunion, achievement
Teal & orange	Hollywood cinematic	Action, contrast, drama
Bleach bypass	Gritty, raw, high contrast	War, struggle, harsh reality

| High contrast noir | Moral extremes, mystery | Crime, divided world, secrets |

Atmosphere Words – The Secret Weapon

****Always include exactly 5 sensory words per scene:****

- One smell
- One texture
- One sound
- Two feelings

****Why it works:**** AI models are trained on human language. Sensory language – especially smell and sound in a visual prompt – activates a deeper, more instinctive visual library than purely visual descriptions.

****Example – Tobun's studio:****

`incense / worn tatami / brush on paper / restraint / waiting`

****Example – Renzo at gate:****

`cold iron / damp bamboo / silence before dawn / weight / unease`

****Example – Tea overflow:****

`steam / ceramic / dripping / inevitable / held breath`
